

CITY OF SANTA BARBARA

COUNCIL AGENDA REPORT

AGENDA DATE:	September 26, 2023				
то:	Mayor and Councilmembers				
FROM:	Accounting Division, Finance Department				
SUBJECT:	Fiscal Year 2023 Fourth-Quarter Review				
RECOMMENDATION: That Council:					

- A. Receive a report from staff on the status of revenues and expenditures in relation to budget for the twelve months ended June 30, 2023;
- B. Accept the Fiscal Year (FY) 2023 Interim Financial Statements for the twelve months ended June 30, 2023; and
- C. Approve proposed Fourth Quarter (Q4) adjustments to FY 2023 appropriations and estimated revenues as detailed in the attached schedule of Proposed Q4 adjustments.

DISCUSSION:

Each month, staff presents interim financial statements (Attachment 1) showing the status of revenues and expenditures in relation to budget for City Funds. Each quarter, the interim financial statements are expanded to include a detailed narrative analysis of General Fund and Enterprise Funds (Attachment 2).

In addition to the Q4 budget analysis, staff bring forward recommended adjustments for City Council approval. These adjustments are result of new information and/or unanticipated events that occurred since the adoption of the budget in June 2022. A listing and description of each proposed current year adjustment is provided in Attachment 3.

Due to economic uncertainties articulated in the FY 2023 adopted budget, a required budget reduction plan of \$1.0 Million was implemented and allocated amongst all General Fund departments. Staff reviewed and consolidated Q4 revenue and expenditure adjustments into the Q4 report for City Council's approval. For General Fund, budget reduction targets have been met. These reductions help achieve a balanced budget, which mitigates risk.

Council Agenda Report Fiscal Year 2023 Fourth-Quarter Review September 26, 2023 Page 2

The table below summarizes the General Fund revenue and expenditure budget including actuals through Q4. The total adopted revenue budget is \$184.6 Million and the total adopted expenditure budget is \$185.7 Million, resulting in an operating deficit of roughly \$1.1 Million. The revised budget includes additional expenditures from encumbrances from prior year contractual commitments, along with any City Council approved adjustments since beginning of the year. There are still several pending adjustments that will have an impact on the bottom line; however, the overall year-end result is materially correct and will only show minor changes moving forward. Q4 adjustments are also not represented in the tables below.

General Fund	FY2023 Adopted Budget	FY2023 Revised Budget	Actuals through Q4	FY2023 Projection (as of Q4)	Actuals Percent of Revised Budget
Revenues	\$184,618,453	\$185,054,308	\$194,818,045	\$194,818,046	105.3%
Expenditures	185,678,749	201,480,990	191,019,138	193,428,723	94.8%
Manual					
Carryforward				2,666,088	
Surplus/(Deficit)	(\$1,060,296)	(\$16,426,683)	\$3,798,907	(\$1,276,765)	

Property tax revenue actuals are 6% above revised budget and 9% when comparing FY 2022. Sales tax and TOT leveled off in FY 2023 but still surpassed budgeted expectations. Staff are projecting a \$1.3 Million deficit in the General Fund when factoring in expenditure budgets for actions taken by the City Council during FY 2023 and for commitments into FY 2024.

Staff will collaborate with the City's auditors in the coming months to prepare and finalize the financial statements, which is scheduled to be presented to the Finance Committee by the end of the calendar year.

ATTACHMENTS: 1. Summary by Fund Statement of Revenues and Expenditures for Twelve Months Ended June 30, 2023

- 2. Interim Financial Statements for Twelve Months Ended June 30, 2023 (Narrative Analysis)
- 3. Schedule of Proposed Fourth Quarter Adjustments
- **PREPARED BY:** Jessica Yates, Accounting Supervisor

** It is City policy to adopt a balanced budget. In most cases, encumbrance balances exist at year-end. These encumbrance balances are obligations of each fund and must be reported at the beginning of each fiscal year. In addition, a corresponding appropriations entry must be made in order to accommodate the 'carried-over' encumbrance amount. Most differences between budgeted annual revenues and expenses are due to these encumbrance carryovers.

** The legal level of budgetary control is at the department level for the General Fund. Therefore, as long as the department as a whole is within budget, budgetary compliance has been achieved. The City actively monitors the budget status of each department and takes measures to address potential over budget situations before they occur.

For Enterprise and Internal Service Funds, the level of budgetary control is at the fund level. The City also monitors and addresses these fund types for potential over budget situations.

The Self Insurance Trust Fund is an internal service fund of the City, which accounts for the cost of providing workers' compensation, property and liability insurance as well as unemployment insurance and certain self-insured employee benefits on a city-wide basis. Internal Service Funds charge other funds for the cost of providing their specific services.

General Fund Revenues

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund. The *Summary of Revenues, General Fund* table below reports preliminary General Fund revenues for the month ending June 30, 2023, in Fiscal Year (FY) 2023. For interim financial statement purposes, revenues are reported on a cash basis (i.e., when funds are received). All revenues below have unique collection cycles, therefore may vary from other revenues and result in fluctuations when comparing historical actuals. This table highlights the annual revised budget and actual collections for general tax revenues, franchise fees, and other fees/charges. There are still several pending adjustments that will have an impact on the bottom line; however, the overall year-end result is materially correct and will only show minor changes moving forward. Q4 adjustments are also not represented in the tables below.

Summary of Revenues, General Fund

Property Tax

In 1978, a State constitutional amendment (Article XIIIA) provided that the ad valorem real property tax rate be limited to 1% of market value and be levied only by the county and shared with all other jurisdictions. The County of Santa Barbara collects the property taxes and distributes them to taxing jurisdictions because of the taxing jurisdictions' assessed valuations, subject to adjustments for voter approved debt. Property taxes are formally due on November 1 and February 1 and become delinquent as of December 10 and April 10, respectively. Taxes become a lien on a property effective March 1 of the preceding year.

As of June 30, 2023, approximately \$46.0 Million in property tax revenues were received. During the budget setting process, 2.5% growth was anticipated in FY 2023 when comparing the previous year's actuals. Actual revenues for this year are now trending to be \$2.8 Million above budget. To note, Proposition 13 impacts the amount of property tax collected as it limits how much taxable value of a property can increase every year. This property assessment occurs in January for the subsequent year at a restricted rate of 2% or Consumer Price Index (CPI), whichever is lessor. Prior to FY 2022, this increase was 2% for several years. CPI in FY 2022 was 1.016% but returned to 2% in FY 2023.

Sales Taxes

Sales and use tax revenue, collected on a cash basis through June 30, 2023, is approximately \$29.0 Million. Positive sales tax trends have been observed, likely due to a combination of increased consumer spending (particularly in online and auto sales) and higher than expected inflation. Sales tax, currently received, is 8.8% higher than forecasted for FY 2023.

Measure C Sales Tax

On November 7, 2017, a 1% general sales tax measure (Measure C) was approved, with significant community support for infrastructure needs, which will generate the necessary funds required to improve the citywide PCI rating. Measure C sales tax revenue received at the end of Fourth Quarter (Q4) is approximately \$30.7 Million on a cash basis, which is 8.5% higher than expected for FY 2023. The additional Measure C revenue will be programmed to support capital projects in the FY 2025 budget cycle.

Transient Occupancy Tax

Transient Occupancy Tax (TOT) revenue at Q4 is approximately \$26.2 Million. There is a higher demand for rooms now that travel has picked up, however, the main cause of the growth is related to increases in average daily rates, which are 30%-40% higher than FY 2019 (pre-pandemic rates). TOT revenues are 11.2% higher than FY 2023 revised budget.

Department and Other Revenues

Cannabis tax revenues have seen a decline (26.2%) primarily attributable to one Cannabis business, due to consolidation of operations and reduced sales in FY 2023 compared to FY 2022.

Various General Fund departments throughout the City generate revenue. These revenue sources combined generated \$32.3 Million in FY 2023. Revenues from departments are comprised of various categories in the *Summary of Revenues, General Fund* table above, but for transparency purposes these variances are broken out by department in the *Summary of Departmental Revenues, General Fund* table below.

SUM	MARY OF DEPARTMENTAL REVEN GENERAL FUND	IUES

Summary of Departmental Revenues, General Fund

General Fund Expenditures

The Summary of Departmental Expenditures, General Fund table below summarizes General Fund expenditures through June 30, 2023, compared to Revised Budget. The Revised Budget column represents the adopted budget, appropriation carryovers from the prior year, and all supplemental appropriations approved by the City Council in the current year. Encumbrances as of June 30, 2023, are shown separately from expense actuals as the inclusion of encumbrances within actuals can distort trends. The City uses encumbrances to control expenditure commitments for the year and to enhance cash management. Encumbrances represent commitments related to contracts not yet performed and purchase orders not yet filled (executory contracts and open purchase orders). Commitments for such expenditure of monies are encumbered to reserve a portion of applicable appropriations. Encumbrances still open at year-end are not accounted for as expenditures and liabilities but rather, as restricted or committed governmental fund balance.

The FY 2023 adopted budget included several targeted reduction plans to assist with lowering City expenditures. A balancing strategy of roughly \$1.0 Million was allocated across General Fund departments, including general reductions and salary-saving measures. Most departments have met or exceeded their goal.

SUMMARY OF DEPARTMENTAL EXPENDITURES GENERAL FUND For the Twelve Months Ended June 30, 2023 Fiscal Year 2023										
Department	Revised Budget	YTD Actual		Projected Full Year	YTD Variance Without Encumbrance	Encum- brance	Remaining Budget After Encumbrances			
Mayor & Council	\$3,369,956	\$3,273,811	97%	\$3,273,811	\$96,145	\$45,911	\$50,234

Summary of Departmental Expenditures by Character Code, General Fund

Expenditure Analysis by General Fund

The General Fund revised budget of \$201.5 Million, which includes \$7.9 Million in carried forward appropriations and encumbrances and any FY 2023 council approved amendments, is 95% exhausted (\$191.0 Million) as of June 30, 2023. The *Summary of Departmental Expenditures, General Fund* table above shows performance at department level. 43% of the total budget, including Non-Departmental Expenditures, is appropriated to provide public safety services through the Police and Fire Departments. Community Services comprises 14.7% of the total budget, which includes the City's Parks and Recreation and Library Departments. General Government makes up 11.7% of appropriations which includes Finance, City Administration, Mayor & Council, City Attorney, Human Resources, and City Clerk departments.

General Government actual spending of approximately \$20.9 Million, represents 89% of its associated annual budget. It is a combination of variances; City Attorney actual is 78% of its budget. The predominant variance is related to the \$1.1 Million approved Short-Term Rental Enforcement Pilot program that will not take effect until FY 2024; therefore, this appropriation will

be carried forward.

Public Safety actual spending is approximately \$82.6 Million or 94% of the associated annual budget. Lower expense trends are mainly related to staffing shortages through FY 2023.

The Police Department (PD) expended \$48.0 Million (91%) of its budget in the fourth quarter. Overall salaries, which includes overtime, came in at 4.7% under budget (\$1.2 Million). Overtime expenditure was 135% of its budget due to ongoing staffing challenges and workloads. Staff continue to manage scheduling and staffing needs to ensure appropriate law enforcement coverage for the City. The Department remains challenged by staffing shortage and long-term Injuries on Duty (IOD). The department currently has 28 sworn positions and 20 professional service positions vacant. Due to these challenges, some programs have been suspended and some staff reassigned to Patrol. Recruitment continues and there are five people in the April 2023 academy who will graduate in October 2023, which will provide additional support. In addition to the \$1.2 Million in salary savings at yearend the department used \$1.3 Million in salary and benefit savings to purchase new body worn cameras and tasers. The Department will continue to evaluate the staffing needs and make appropriate changes.

Revenue is 69.4% of its budget. This shortfall is mainly due to parking revenue decline related to the limited volume of citations issued because of staffing shortages. The target for parking citation revenue in FY 2023 was adjusted down to \$2,128,618, anticipating that the pandemic parking enforcement suspensions would continue to have some impact on future revenue as well as the ongoing staffing challenges. The actual staffing shortage was greater than anticipated. A year-end budget adjustment funded by salary savings is being requested to replenish a negative fund balance within the Public Works Department's Street Sweeping fund due to additional residential street sweeping expenditures incurred.

The Fire Department (FD) spent \$34.6 Million, using 99% of its budget. Combination of staffing shortages, increased overtime, and the carryforward of Vegetation Management for \$265K in FY 2024 brings expenditures in line with budget.

Revenue projections were reduced at mid-year and Q3 to reflect a slower than anticipated Mutual Aid season. However, revenue exceeded forecast attributed mainly to higher than anticipated airport reimbursement related to Aircraft Rescue and Fire Fighting (ARFF) services.

Community Services has actual expenditures of \$26.9 Million, or 92% of associated budget for FY 2023.

The Library Department spent \$7.2 Million, or 94% of its annual budget for FY 2023. Savings in the General Fund at yearend are due to unexpected vacancies and grant funding coverage of salaries. Revenue shortfall is largely due to the continued impact of Central Library construction projects taking longer than expected.

Parks and Recreation (P&R) Department had Q4 expenditures of \$19.7 Million (90% of its annual budget). Due to several permanent positions held vacant in Q1 and the mandated hiring freeze implemented in Q4, P&R achieved FY 2023 required budget reduction targets (1% of expenditure budget). Additionally, a large portion of savings is due to the reduction in non-contractual services and supplies related to the Trapeze Camp and other programs. An important thing to note is that most Recreation programs are contracted out and expenditures are offset by the revenue they generate. The Department continues to provide essential services, such as park

maintenance to ensure that the community has access to safe and clean open spaces, food distribution and senior meal programs, recreation programming, camps, and affordable activities for youth and adults. Aside from core functions, the P&R Department continues to advance key capital infrastructure planning, design, and construction to ensure safe and accessible conditions.

The Public Works Department (PWD) had expenditures of \$9.96 Million, or 87% of its annual budget for FY 2023. Salary and benefit savings for administrative support throughout the department contributed to the savings. These positions have now been filled. Environmental programs were 69% of budget primarily due to underground tank abatement and remediation. The savings for the remediation projects will be carried forward to FY 2024 for upcoming remediation projects that were pushed due to prior budget constraints.

The Sustainability & Resilience (S&R) Department had expenditures of \$17K related to the CalRecycle program that is solely grant funded. Approximately \$57K of this grant will be encumbered and fully spent by the end of FY 2024. The CalRecycle program's mission is to protect California's environment and climate for the health and prosperity of future generations through the reduction, reuse and recycling of California resources, environmental education, disaster recovery, and the transition from a disposable to a fully circular economy.

The Community Development Department (CDD) had expenditures of \$15.1 Million or 93% of its annual budget. There was high demand this year for development services/permits which drove the revenue budget exceedance. As for expenditure shortfall, the main driver of savings was related to recruiting challenges that resulted in sustained rates of high vacancies.

Non-Departmental expenditure includes transfers from the General Fund to other funds. Most transfers occurring are to the Measure C fund which supports various capital maintenance and improvement projects. Anticipated year-end attrition savings are also recorded here, which helps balance variances achieved. Prior quarter, a transfer of \$4.0 Million from the General Fund into the Self-Insurance fund (SIF) was adopted to address the growing underfunded reserves in the SIF. The actuarial recommended reserve level in the SIF grew from \$18.3 Million in FY 2022 to \$24.4 Million in FY 2023 – a \$6.1 Million increase. The allocations into the SIF in FY 2023 and planned for FY 2024 and beyond are not adequate to bring reserves up to the actuarial recommended level; therefore, staff will consider transferring additional General Fund resources, as available, into the SIF which is in line with Council's prior direction to allocate additional resources to address the underfunded position, in future budget cycles.

General Fund Reserves Projection

The *General Fund, Fund Balance* table below summarizes reserve projections for FY 2023, compared to actual reserves from prior years. General Fund has two reserve targets, Disaster Reserves and Contingency Reserves.

General Fund, Fund Balance	FY2019 Actual	FY2020 Actual	FY2021 Actual	FY2022 Actual	FY2023 Projected at Q4	FY23 v FY22 Projected Change in Reserve

General Fund Reserves, Balance Summary

The Disaster Reserve is restricted to use in addressing the financial impacts of natural disasters, such as storms, floods, wildfires, droughts, tsunamis, earthquakes, and any other event that results in significant damage to City facilities and infrastructure or a significant reduction of normal operating revenues. The amount of the required Disaster Reserve is calculated based on 15% of the most recently adopted fiscal year operating expenditure budget.

The purpose of the Contingency Reserve is to allow for the orderly implementation of a balancing strategy to address the fiscal impacts of unexpected events to minimize the impacts to the organization and community. The most common of these events would be an economic recession that results in a significant impact on key revenues such as sales, transient occupancy, or property taxes. The Contingency Reserve is calculated based on 10% of the most recently adopted fiscal year operating expenditure budget. This table summarizes General Fund reserve targets of 15% Disaster and 10% Contingency as required by City Council Resolution No. 22-126, which amended Resolution No. 12-066 and rescinded Resolution No. 18-056. Any use of the Disaster or Contingency reserves requires a majority vote of approval by the City Council. Staff will continue to address anticipated changes to reserves based on projections in future quarterly reports to City Council.

The FY 2023 adopted budget required strategic use of a small amount of reserves to balance the budget. Reserves were largely replenished in FY 2022; however, they are projected to decline slightly in FY 2023. The SIF is still underfunded based on the actuarial recommended level, which continues to present a burden on the General Fund.

The graph below summarizes the General Fund Reserves since FY 2005, including a projection of ending reserves at the end of FY 2023. The FY 2023 adopted budget appropriated use of \$1.0 Million of reserves to balance the budget. FY 2023 also includes the use of carryforward appropriation from FY 2022, which is included in the revised budget. Per the City Council revised reserve policy, a proportional share of surpluses in City funds would be allocated to address the ongoing pension costs and liabilities, and the remaining reserves would stay in General Fund reserves to address future budget challenges.

General Fund Reserves, Summary (FY 2023 are projections, whereas other years are actuals)

Enterprise Operating Fund Revenues and Expenses

Unlike the General Fund, that relies primarily on taxes to fund programs and services, Enterprise Funds, also known as Proprietary Funds, are financed primarily from user fees and other non-tax revenues. The *Summary of Revenues & Expenses, Enterprise Funds* table below reports Enterprise Fund revenues and expenses through June 30, 2023, associated Annual Budget, projected end-of-year actuals and prior year actuals for this same twelve-month period. Encumbrances as of June 30, 2023, are shown separately from expense actuals as the inclusion of encumbrances within actuals can distort trends. Proprietary funds of the City include the Water Fund, Wastewater Fund, Airport Fund, Waterfront Fund, Solid Waste Fund, Downtown Parking Fund, Clean Energy Fund, and Golf Fund.

Summary of Revenues & Expenses, Enterprise Funds

Solid Waste Fund

The Solid Waste Fund accounts for trash and recycling services and related programs. Solid Waste Revenues are \$34.2 Million for FY 2023, which aligns with budget. A large majority of this revenue (\$33.7 Million) comprises of trash & recycling service charged to customers. The main costs of the fund are for hauling service (provided by the City's franchise hauler MarBorg Industries), for processing and disposal services through the ReSource Center at the Tajiguas Landfill (administered by the County of Santa Barbara), and other trash and recycling programs managed by City staff. Actual expenditures are \$32.9 Million (94.2% of budget) and is below budget largely due to slightly lower MarBorg compensation, salaries/benefits savings due to vacancies, and some savings related to professional services.

Water Fund

The Water Fund accounts for the provision of water services to the residents of the City and some residents of the County. At the end of FY 2023, Water Fund revenues have totaled \$66.8 Million, or 94.9% of its adopted budget, which includes anticipated seasonal variance in revenues related to higher water demand in summer months. Due to recent storm events, there was a slight shift in water use for FY 2023, resulting in a decrease in revenue of 7.7% when compared to budget.

Expenditures ended Q4 at \$65.7 Million or 91.7% of its annual budget (including encumbrances). Largely due to vacancies and Special Projects (water purchases/delivery), expenditures are under budget by \$6.1 Million. Given the plentiful rainfall this year there was no need to purchase additional water this year.

Wastewater Fund

The Wastewater Fund accounts for the provision of sewer services to the residents of the City and some residents of the County. FY 2023 revenues are on target at \$26.9 Million (98.2% of its annual budget). Only a portion of Wastewater rates depend on water usage, which explains why there is less variability in Wastewater rate revenue when compared to Water rate revenue. Various other revenue sources such as interest income, sewer tap fees, pre-treatment analysis, and Fats-Oils-Grease (FOG) disposal fees experienced small variances that contributed to the overall balance of revenues.

Expenditures are below budget at \$27.0 Million (94% of budget). Encumbrance for \$1.0 Million brings total expenditures to 97.7% of its annual budget. Special Projects ended the year at \$767K or \$148K (16%) below budget due to a shift of CCTV costs to the capital program. To receive the best pricing for the CCTV project, it was determined to encumber the entire three-year contract in FY 2023. The special projects fund was developed to address only one year of the CCTV; therefore, the entire CCTV contract was encumbered in the CIP SSO fund and not the special project fund.

Downtown Parking Fund

Downtown Parking Fund accounts for the provision of parking services in the downtown area of the City. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, billing and collection of fees, capital acquisition, construction, and financing and related debt service. At Q4, actual revenues for Downtown Parking are approximately \$10.3 Million or 97.1% of its annual budget. When most of the revenues exceeded budget expectations, service charges were down slightly, mainly due to difficulty staffing hourly lots for self-service in the mornings and decreased demand. Other revenue factors include the Parking and Business Improvement Area (PBIA) assessment exceeding projected budget by nearly \$134.4K, due to stronger business activity Downtown.

Overall expenditures for Q4 are \$10.4 Million, or 96.8% of its annual budget. Shortfall is related to salary and benefit savings of \$206K with an offset of \$80K from supplies and services.

Clean Energy Fund

The Clean Energy Fund accounts for the cost to procure clean and renewable electric energy on behalf of the Santa Barbara Community. The Santa Barbara Clean Energy Fund began operation in October 2021 and started receiving revenue in Q2 FY 2022. Through yearend, revenues are \$43.4 Million or 9.9% over budget. The energy rates that SBCE charges customers are tied to the rates that Southern California Edison (SCE) charges customers (a slight 1.6 cent per kilowatthour premium above the SCE rate). SCE's rates can change throughout the year, and in February 2023, SCE instituted a substantial rate increase and instituted a second rate increase that went into effect in June 2023. These increases resulted in SBCE's revenues to be \$4.0 Million above budget.

Expenditure for the SBCE Fund through Q4 are approximately \$37.5 Million or 96.3% of the budget. There has been significant volatility in the cost of energy in the open market, which led to large one-time increases in September and December. The combined effect of the increases in revenue and expenditure means that SBCE achieved a significant \$5.9 Million positive variance at yearend which will not only boost reserves but will fund customer programs for FY 2024.

Airport Fund

The Airport Fund accounts for the operation of the municipal airport and the administration of leases of airport property. The Airport Department continues to see a strong level of commercial airline passenger activity since the beginning of summer 2022. For this fourth quarter (April to June 2023) commercial airline passenger activity reached 100,000 passengers during the month of April, putting us closely on track towards the unprecedented achievement in October 2022, when we reached over 120,000 passengers in one month for the first time in Santa Barbara Airport history. Total Airport revenues of \$27.3 Million encompass 100.1% of the annual budget. Revenues exceeding budget are Parking, Ground transportation, rental cars, and Concessions which largely offset Commercial/Industrial lease shortfall of 93.03% of its FY 2023 budget.

Total Airport expenses of \$29.6 Million and \$740K in encumbrances encompass 92.7% of its annual budget. Salaries and benefits ended at 98.3% of its forecast. The airport is actively recruiting to fill vacancies to ensure operational needs are met. The Airport is seeking additional appropriations to support the Parking Program, which has grown into a significant revenue source. As a strong domestic leisure market, the Santa Barbara Airport is continuing to see sustained recovery in commercial airline activities despite higher than usual weather cancelations, airline staffing shortages, and airline technological issues. The Airport continues to right size operations to meet what is likely sustained growth in customer demand.

Golf Fund

The Golf Course Fund accounts for the operation of the municipal golf course. All activities necessary to provide such services are accounted for in this fund including, but not limited to, administration, operations, maintenance, capital acquisition and construction, financing and related debt service, and billing and collection of fees. At Q4, actual golf revenues are \$4.3 Million or 5.2% over its annual budget. Paid rounds and concession performance exceeded budget. After the rainy weather experienced in Q3, golfers returned to the course in full force and the golf course experienced high use of the facility throughout Q4. At yearend, the golf course achieved 65,647 paid rounds of golf which is 5% (3,032 rounds) ahead of budget. As a result of the strong revenues earned, the course operator received an incentive fee for a third consecutive year as projected.

In addition, Mulligans, the golf course restaurant concessionaire performed well; \$232K or 43% above FY 2023 budget.

Expenditure at Q4 ended at \$3.7 Million (95.2% of annual budget), which is consistent with projected levels. All expenditures aligned with FY 2023 forecast aside from materials, supplies, and services which provided budget savings.

Waterfront Fund

The Waterfront Fund accounts for the operation of the City managed waterfront that includes a public wharf, a small craft harbor, and parking facilities. Actual revenues for FY 2023 are \$18.8 Million or 10.5% over its annual budget. Commercial and Food Service leases were over FY 2023 projections by 15.6% and 16.2% respectively or a total of \$811K. Budgeted revenues were very conservative due to significant COVID related economic uncertainty and poor weather.

Actual expenditures for Q4 are \$18.0 Million (93.2% of annual budget) and encumbrances are \$238,981 collectively representing 94.4% of the Waterfront's total annual budget. Salaries and Benefits finished slightly below budget for FY 2023. The savings are the result of numerous positions being held vacant. Supplies and services ended the year 9.7% below budget due to careful planning and cutting costs.

The January 2023 storms and swell events resulted in an Emergency Declaration at the Federal, State, and Local levels. It is the intent of the Waterfront and all other impacted departments to go after all available reimbursement funding options.

Enterprise Operating Funds: Year-End Projected Reserves

The *Enterprise Operating Funds, Reserves* table below summarizes the anticipated impact on reserves in each major enterprise fund at the end of FY 2023 compared to policy reserve targets.

Enterprise Operating Funds	FY2022 Policy Reserves	FY2022 Available Reserves	FY2023 Projected Add (Use) of Reserves	FY2023 Projected Available Reserves
Solid Waste	5,174,504	2,441,640	1,275,373	3,717,013
Water	32,648,426	15,106,164	1,142,344	16,248,508
Wastewater	11,112,046	658,121	(68,676)	589,445
Downtown Parking	2,784,756	58,443	(151,480)	(93,037)
Clean Energy	8,306,226	(9,694,992)	5,920,774	(3,774,219)
Airport	7,632,879	5,403,913	(2,277,009)	3,126,904
Golf	969,828	1,546,063	530,066	2,076,129
Waterfront	3,932,918	4,207,206	763,294	4,970,500

Enterprise Operating Funds, Reserves

For FY 2023, all enterprises aside from Clean Energy and Downtown Parking, are anticipated to have a funded position. It was mentioned Q2 that the Clean Energy fund would propose a reserve policy, this occurred and was adopted December 8, 2022, by Resolution No. 22-126. This policy

noted that the Solid Waste and Clean Energy Enterprise Operating Funds shall utilize the contingency reserve to buffer a significant loss in revenue or the impacts of significant rate increases, and the use of these reserves should be considered one-time revenue as future rates will need to be adjusted to address any ongoing expense increases.

Interdepartmental Services Operating Fund Revenues and Expenses

The City has established internal service funds for centralized services that provide support across most or all funds and departments. These functions primarily include Fleet, Facilities, Risk Management, Creeks, and Information Technology. The interim quarterly reports would typically not discuss in detail major changes in the City's internal services departments and funds, as major changes typically do not occur during the year. For additional information, please see attachment 1, *Interim Statement of Revenues and Expenditures* for additional details.

Self-Insurance Fund (SIF)

The City purchases insurance policies to cap its exposure to loss for specific hazards. The SIF accumulates revenues through an annual allocation from departments as an expenditure to each department. The SIF then funds the program's annual renewals for insurance coverage for claims that may arise and to cover salaries/benefits of staff administering the program.

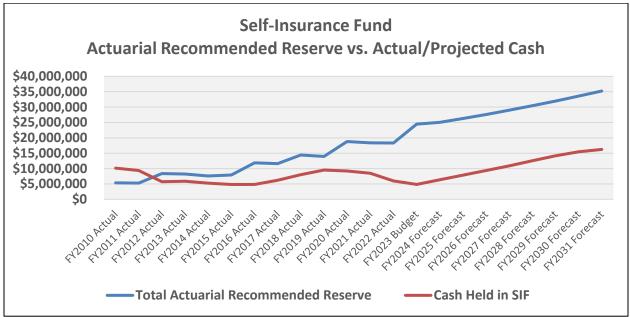

The SIF has had and is projected to have challenges in receiving adequate annual allocations to the fund from operating departments and not having adequate reserves in the fund to pay future claims. The cost to the City to retain existing property, excess general liability, and other insurance programs has increased substantially over the years. Liability coverage has become more expensive across the nation due to various substantial claims; notable claims related to law enforcement and droughts and wildfires in the Western United States and California included.

The adopted budget included additional allocations into the SIF to begin to increase reserves to achieve the actuarial recommended level over the next nine years. Expenditures of \$14.7 Million represent 101.7% of total budgeted expenditures through Q4. The most current actuarial report recommended a SIF balance of \$24.1 Million by the end of FY 2023, a \$5.8 Million increase from the prior fiscal year.

On November 16, 2021, staff presented an overview to the Finance Committee of major changes anticipated in the insurance industry, budget considerations for FY 2022 and FY 2023, and substantial increases to operating department allocations into the SIF to ensure ongoing premium and claim payments costs can be met, and adequate reserves are achieved. The Finance Committee unanimously supported implementing a plan to gradually increase allocations into the SIF over the next nine fiscal years to achieve target reserves at or near the actuarial recommended level. Staff built these allocation increases into the FY 2023 budget.

Staff proposed a \$4.0 Million transfer from the General Fund into the SIF by the end of FY 2023. This action was adopted during Q2 and will help stabilize the SIF reserves further to fund the City's insurance programs and reduce future funding challenges.

The graph below, *Self-Insurance Fund, Actuarial Recommendation*, shows the actuarial recommended reserve, the actual/projected cash in the SIF over the past 12 years, and the gradual/substantial reduced reserve levels in recent years.

Self-Insurance Fund, Actuarial Recommendation
